THE AUTOMOBILE SHOW

IMA'S automobile show has been under way for two days, The success predicted for it is being realized in every repect both for the dealers and for the public. The exhibit will ontinue the remainder of the week and undoubtedly will coninue to draw crowds as it has on the first days.

The show will be recorded as one of the largest, in fact the ourth largest in Ohio this year. With a number of cities much arger than Lima in the Buckeye state, this is particularly grat-

An automobile show is a benefit to the public as much as o the dealer. And if it didn't pay the dealer, he wouldn't bothr with it. If it didn't pay the public, the great throngs who lock to such exhibits wherever they are held wouldn't bother vith them.

The dealers are permitted to place before those who atend the latest models in their line. They are permitted to neet folks who own cars and who want to own them-and hat just about includes all of humanity-and the public may inpeet the various makes and models at their leisure and with he advantage of all being bunched which makes comparison

Lima has a wonderful representation in the automobile ine. Practically every popular make of car is represented in sales agencies here. And they can all be seen on W. Marketit this week. Those who have not already been there will find visit to the auto show time well spent.

00000 BARNUM'S RULE FOR GETTING RICH

BARNUM, the circus man who "discovered" America, at one time in his career toured England delivering a lecture on "The Art of Money Getting." After many years, the high spot of this lecture is Barnum's belief that there is no such thing as

Said Barnum: "There never was a man who could go out n the morning and find a purse full of gold in the street tolay, and another tomorrow, and so on, day after day. He may lo so once in his life; but so far as mere luck is concerned, he s as liable to lose it as to find it."

There is, however, more reason for believing in good luck han in bad luck, even the so-called good luck usually is a commination of intelligence, influence and hard work,

BARNUM was a genius, a combination of highly developed imaginiation and a decided sense of the practicable.

Warning against being too visionary, Barnum told of a 'philosophic pauper who was kicked out of a cheap boardingrouse because he could not pay his bill, but he had a roll of papers sticking out of his coat pocket which, upon examina-Ion, proved to be his plan for paying off the national debt of in the human body, that is, counting the disappointing physiological Ingland without the aid of a penny,"

For fifty years "Phillips' Milk of Magnesia" has been prescribed by physicians because it has an advantage over the usual laxatives and cutharties in being harmless, almost tasteless, mild in operation and not causing nausea, griping or the slightest inconvenience; also because it has an advantage over the usual "stomach remedies" in that it is markedly efficient, neutralizing almost three times as much acid as a saturated solution of Bicarbonate of Soda and almost fifty times as much as Lime Water. Does Your Blood Need Iron?

How To Make The Test That Tells

A pale face, a nervous irritable disposition, a lack of strength and endurance—these are the warning signals that Nature gives when your blood is getting thin, pale, watery and starving for iron. Iron is constantly leaving the body, especially toward the period of middle age and if you must make up for this iron deficiency if you want to escape disease and be strong and well.

When the iron in your blood runs low signs of old age creep into your system. In such cases ordinary froncontaining foods seldem supply a sufficient quantity of this important element to make up the waste.

Therefore, many scribe a concentrated form of organic iron-Nuxated Iron-which contains iron like the iron in your blood. If you are not sure of your condi tion, go to your doctor and have him take your blood-count, or else make

the following test yourself: See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times ner day after meals for two weeks. Then test your strength again and see how much you have gained. All good druggists sell Nuxated Iron, on the distinct understanding that if you are not satisfied your money will be refunded.

PIMPLY?WELL, DON'TBE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A nimply face will not embarrase you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, bowels and liver

with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.
Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cursed with a "dark brown taste,

a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face. Olive Tablets are a purely vegetable

compound mixed with olive oil; you will know them by their clive color. Dr. Edwards spent years among patients afflicted with liver and howel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

Says Stomach Would Bloat Up and Burn and Cause Her Intense Suffering

RELIEVED BY PLANT JUICE

Another surprising testimonial which shows the extreme power and efficacy of this herbal medicine, Plant Juice, in cases of stomach trouble was received by the Plant Juice Man when he was at Houston, Texas recently, from Mrs. J. L. Lansder, popular Houston lady living at

711 Arlington Street, that city. "Four years ago I had typhoid fever and it left me with an awful case of stomach trouble," said Mrs. Lansder. "I had rains in my stomach continually which got so intense they would wake me up at night. After eating, I would have gas in my stomach which would cause bloating and pains between my shoulders. I had a lump in my stomach which felt as heavy as lead and I had had burning spells in my stomach. I was weak and run down and surely was in terrible condition. "I tried many different medicines and treatments but without results and then, finally, I heard of your Plant Juice and started taking it and will say that it is just wonderful what your medicine has done for me. I have gained 10 pounds; eat and sleep good and am just feeling fine. I do not have those awful pains in my stemuch any more; have been relieved of

ASKS TRIAL IN SEPTEMBER

Replies to Presentment on Charges of Heresy

GALION, Ohic - (Associated Press) - A request that his trial on charges of heresy be held here in September or October is contained in his reply to the presentment of the House of Bishops, mailed by Rev. William Montgomery Brown, retired Episcopal bishop of Arkansas. Copies of his answer were mailed to the bishops of Vermont, Indiana, and West Virginia and to Rev. Dr. Edwin G. Weed, presiding bishop at Jacksonville. Fla.

The charges in the presentment are based upon a book written by Rev. Brown, in which he rejects literal interpretation of the Bible.

'Tho I do not believe in the existence of a conscious, personal God, lared in his answer. "Nature is my pert. divinity, and it is a symbol of the trinity, the great matter-force, the great reality in which all that lives, moves, and has its being." Other excerpts follow:

"Contrary to the representathe presentment, my book! not contain twenty-three which are opposed to the te.....ngs of the prayer book and creeds nor even one. I do reject the supernaturalistic teachings of the Bible if they must be interpreted literally; but not if I may interpret them symbolically, allegorically or paradoxically.

"My brethren have been challenged the Bible literally interpreted * * * and I promised I would voluntarily leave the house and church.

PRESCOTT TO SYDNEY CAR-TON. CONTINUED

Syd. Ruth's answer to my question about women loving their children more than their husbands was most surprising. Without the slightest besitation, she said:

"Of course they do. A woman has the same feeling of possession; in regard to her children as a man has in regard to his wife. They aspire to be arbitrators of their children's fate.

"This however, is something that is going to be done away with," couready asserting their independence. They will hardly now listen to dictation without reason."

Here, Syd, I realised that I had been putting off the fatal question. I had been starting Ruth on her feminine philosophy simply to keep her from telling me that she thought I should go to Leslie and tell her

the whole story. Just as I had screwed up courage enough to tell Ruin I would confess to Leslic that night she was called to the telephone, and I found that damned efficient press agent of hers, Dick Summers, had sprung something new upon me. He had written Leslie a letter asking her to be one of the patronesses at a reception given to Paula after

one of her matinee appearances. Leslie had consented to do this providing Ruth and some of her When Ruth came back to me, she was almost smiling. I knew she considered it quite a joke, and then

her face grew serious again. "I shall tell Leslie to refuse," I ventured. "You will do nothing of the kind,"

answered Ruth. "It is one of the best things that has ever happened to you. All her friends will go with Address Pattern Department, The lot of gossip." "But don't you see now I cannot

Says His Prescription

Has Powerful Influence

Over Rheumatism

Mr. James B. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless

and anable to work. He finally dicided, after years of ceaseless study, that no one can be free from the matism until the accumulated imparities, commonly called true and deposits, were dissolved in the joints and muscles and

expelled from the body, With this idea in mind he consulted physicians, made experiments and fipally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovers, which he called Allenring to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. therefore instructed the Argonne Drug Store and Green's Public Drug Store to dispense Alleman with the understanding that if the first pint bottle does not show the way to complote recovery he will gladly return cour broney with**eut comment**

THE freight service which I was performed by the Pennsylvania Railroad System last year was equivalent to carrying one ion about 55,000,000,000 miles.

It was the greatest amount of service this or any other railroad was ever cailed upon to render.

It necessitated the handling of 8,600,000 loaded freight cars-about 17 per cent. of all the freight cars loaded in the United States.

The state of the s

If the loaded freight cars moved over the Pennsylvania Railroad System last year were made in a single train it would be about 70,000 miles long-nearly enough to go around the world three times.

Settlement of British Strike Has Bullish Effect

DROP FOLLOWED BY RALLY

Advances in Corn and Oats Are Recorded

CHICAGO-(Associated Press)-

Influenced by reports that the British dock strike lad virtualy been settled, the wheat market here developed strength today during the early dealings. Buving, however, lacked volume. Bears contended lacked volume. Bears contended that with May wheat selling under the deferred months at this time of the year a bull campaign was unter able. The opening, which ranged from 1-Se lower to 1-Se lingher, May 1 10 to 1,10 1-4 and July 1 10 3-8 to 1 10 5-8, was followed by a slight sag and then by an advance all around to above vesterday's finish Pespite considerable selling pressure due to clear cold weather, corn and outs showed firmness Prolictions of a sharp reduction of recepts of commute care to Miles ppening 1-40 off, to 1-50 advance Mas 80 to 50 1-1 the corn market eased a triffle more then scored

slight gains Oats started 1-8 to i-ic lower to 1-8c gain, May 48 5-8 to 48 3-1 and later showed a general upturn Provisions were without and decided change.
